iCANPOD/iCANDOC Workshop Series Perspectives in Precision Cancer Medicine in and Outside Academia 2026

We are excited to introduce the upcoming workshops focusing on the theme “Cancer in and outside academia” as part of the iCANDOC Doctoral Education Pilot and its postdoctoral program iCANPOD!

This series is designed for doctoral researchers and postdocs interested in exploring cancer-related topics from both academic and non-academic perspectives. Through interactive sessions, participants will engage with experts from research, clinical practice, industry, and other sectors to gain insights into the evolving landscape of cancer research and care.

Timeline: Workshops will be held periodically until the end of 2027

Credits: A certificate will be provided to participants from each workshop upon request from icandoc-info@helsinki.fi. Doctoral researchers can apply for credits from their doctoral program, subject to their guidelines.

More information: icandoc-science@helsinki.fi

We look forward to your participation in shaping the future of cancer research and education!

Preparing Cancer Research for Commercialisation

Do you want to explore entrepreneurial career options, learn how to secure your ideas, understand the road from research to commercialisation, and get inspired by real startup stories. Please join Bridging Science and Business: Preparing Cancer Research for Commercialisation workshop on **Fri 17.4.2026 at 12-16, Biomedicum 1, Seminar Room 3**. [More information](#) and [registration](#).

Bayer Drug Development Pipeline Simulation workshop

Are you interested in seeing how discoveries move through the drug development pipeline from target identification to clinical development, how real drug development decisions are made and why do promising projects fall? Join the Drug Development Pipeline Simulation facilitated by Bayer's experts on **Thu 23.4.2026 at 9-12, Biomedicum 1 Opetusbasaari**. [More information](#) and [registration](#).

Patient Involvement in Research Workshop (for iCANPOD and NORPOD postdocs only)

Do you want to explore the benefits and challenges of patient involvement in cancer research? Please join the Patient Involvement in Research Workshop on **Fri 29.5.2026 at 12-16, Biomedicum 1, Seminar room 1-2**. [More information](#).

On Behalf of iCANDOC:

Piia-Riitta Karhemo, iCANDOC Scientific Coordinator

Mila Hyytinen, iCANDOC Coordinator

Mariike Kuijjer, iCANDOC Director
